**A NEW SOLO ALBUM WHICH PACKS A SERIOUS PUNCH - BECAUSE FERRIS MC IS MAKING ROCK MUSIC**

Over 20 years ago, FERRIS MC (alias of Sascha Reimann) moved to Hamburg and made history in German hip-hop with the Mongo Clique. Now he announces a new solo album which packs a serious punch - because Reimann is making rock music. The multifaceted artist looks back on his varied career - stylistic inconsistency and a penchant for changing genres has been there throughout. So FERRIS MC already surprised with rough left field beats and riffs on his first solo album »Asimetrie« (1999) and »Fertich!« (2001) instead of the current gangster rap cliché.

"Punk rock and rap had a formative influence in my youth, that's why there is a minimum of one crossover track on almost every record I made", explains Reimann.

"With rap I reached the point where I can just repeat myself over and over again to fulfil expectations. But this is not how music works for me because I have to make my grade to release the energy I need to turn in a good record."

Even though many musicians tend to ensconce themselves in a niche sooner or later, Ferris doesn't pigeon-hole himself. Neither as a musician nor as an actor - his second nature. While the first years of his career were coined with hip-hop, the second decade was shaped by joining the electro formation DEICHKIND in which he was a member from 2008 till 2018.

With »Wahrscheinlich Nie Wieder Vielleicht« FERRIS MC is heralding the start of his rock era.

The changeover to the guitar sound wasn't difficult for him. It's quite the contrary, he found his roots. "I liked and listened from RAMONES via DIE ÄRZTE through to EXPLOITED in the 80".

Born in the Rhineland he looks back onto his youth "I was a little punk back then and wanted to make music myself. It was fabulous and super fun to be in the studios with MADSEN and to record this new album. All of a sudden I felt like 18 again - fresh and unspent"

Beside producing the record, MADSEN cut it live in the studios. A close collaboration which was a lot of fun for both sides.

The content of the record covers a wide spectrum of subjects. The title track 'Wahrscheinlich Nie Wieder Vielleicht' and 'Allianz Der Außenseiter' allude to his neverending role of the underdog. 'Niemandland', the only rap track on the record denounces the prevailing consumption and meritocracy. Musically, the record has plenty to offer, beside the calmer tracks like 'Der Teufel Tanzt Weiter' there are a lot of heavy songs such as 'Shitstorm' too.

"I've made this record for the people who like handmade music and are ready to embark on a shouting and screaming FERRIS MC dispassionately of his past and letting his rapping alter ego behind." the musician summarizes his record.

"I no longer want to help oneself of an image. I want to make music which suits me as a human being. It's time to show the world who I really am."

Following the studio collaboration with MADSEN there will be several support shows on the Lichtjahre-Tour 2019. So prepare yourself because the third decade of the self-appointed freak stands in the sign of Rock!
