FRESH BLOOD FROM GERMANY!

Within only four years the six guys from Essen, Germany caused a furore. With their debut »Neverland« from last year they made it to the top of the trancecore scene. Now the band is raising the ante with their two singers and pumping basses on the upcoming album »Dethroned«. What TO THE RATS AND WOLVES will deliver with their second long player will instantly blow the minds of their fans.

The advanced overall concept will set new aesthetic and musical standards. The singalongs, with which the band did score in the past, reached a new level. The heaviness was doubled at least. The trance parts became more intensive and cunning. Sold out venues, constantly growing followers and clicks on their social media platforms proves the wolves & rats right. Long story short – everyone who goes for ESKIMO CALLBOY and similar artists has found his new master.
